

One of the ways that MCS will communicate event information and reminders is with a weekly Upcoming Events email that is generated and automatically emailed to families every Saturday night. These will begin Saturday August 14th, so watch your email and check your spam folders. We recommend adding the following two email addresses to your safe list, contacts list, white list, etc. depending on your mail server:

email@faithwebsites.com

email@magnusonschool.org

Unfortunately MCS does not have any control over the mail filtering and/or spam blocking programs that mail providers use. We have found that a couple of free providers like AOL and MSN filter our emails to the junk folder and many employers block our emails completely. If you want or need to use a work email address you may need to contact your IT department about allowing email from MCS to come through.

If your spam filter is set up to delete suspected spam immediately you may want to change this to delete your spam after a few days, so if our emails are considered spam you will still have them in your spam folder.

Each family may designate two email addresses to have emails sent to. We will gladly work with each family to make sure you are receiving MCS emails, but it is your responsibility to let us know if you have not received emails or if you suddenly stop receiving emails from MCS.

Mail providers may change their filtering rules so it is a good idea to watch for the weekly email to ensure you are not missing important information.
