Valentine's Day is coming soon, and we will be having a class party on Thursday, February 14th, at 11:15. We will exchange Valentine cards, and I will send the class list. Please have your child bring one Valentine for each child in the class. The class will make envelopes for the cards at school, but if your child wants to create a container at home, that's fine too. Valentines can be sent the week of the 11th. If there are parents willing to help at the party, just let me know. Also, that day can be a non-uniform day, choosing colors and styles going along with Valentines Day. Our earth science unit has moved from soil to rock and our experimenting will have us making sedimentary, igneous, and metamorphic rocks. If you can, please send an empty smaller tin can, like a tuna fish or soup can for Monday's experiments.

FYI

*I have attached information about I Love to Read for the month of Feb. We are still looking for guest readers. Are you out there?

*For Our Valentine's Gift of Prayer, we will be sending a Valentine card to someone, letting them know that our Valentine gift to them will be praying for them in school on February 22nd. We will also ask them to let us know if there is anything specific that they would like us praying about. We may be needing some addresses for this project.
