Thursday	Spanish/Music/Sharing <i>Mad Science</i>
Friday	<u>Play Permission Slip Due</u> Spanish/Phy.Ed. Vocab. Due- <i>Trapped By The Ice</i> Spelling Final Test Manitou Days Button Contest Due

Bible Verse

Whatever you did for one of the least of these...you did for Me.
Matthew 25:40 Pastor Carl just spoke about our Bible verse in chapel this week.

Don't Forget

READ READ READ
MAGNUSON READ-A-THON
READ April 14-May 2 READ

May 6-8 Book Fair-Open Tues. & Wed. @ 9:00 a.m. & 12:30 a.m. & again on Thursday the night of the Culminating Event.
May 8-Cultural Culminating Event-6:30p.m.
May 9-Pledges Due
May 13-MPTP Mtg.
Ma17-TC Kids Marathon at Como Park
May 23-Ronald McDonald Assembly
May 26-Memorial Day-No School

*Thank you for all of the book die cuts turned in, but we are behind our goal of 50 books for our class for a week, so please keep reading. Also, don't forget to send the book to determine how many books it is worth for the Read-A-Thon. Happy Reading.

*We have been finding out about weather. We have learned about anemometers, wind vanes, hygrometers, rain gauges, and have made our own barometer. The students were a little amazed to learn how heavy air is, and that almost 15 pounds of air presses on each square inch of their body all the time, especially when they are at sea level.

*Now we have started a fascinating space science unit. We will be learning about the sizes, distances, movement, and basic characteristics of objects in the solar system. We will be trying to determine why the appearance of the moon changes over the month. The phases of the moon can be confusing for some. Please do some lunar gazing this month, and try charting the moon and its phases on your calendar.

FYI

**Thank you for the items already sent for the Culminating Event, May 8th. It is so nice to know ahead of time that we have everything! We are still needing: a train conductor hat, and an airplane pilot's hat. **There are lots of items in the Lost & Found. They'll be displayed during this event, so please take a peek.
